

DP-203 SIP Video Doorbell:

Secure Your Entry, Anywhere

Elevate your entrance with the DP-203. Featuring a sleek 8mm aluminum flush-mount design, it combines sophisticated aesthetics with IR night vision and VBELL App control. The perfect blend of minimalist style and smart, reliable security for any modern space.

Features:

- **Premium Aluminum Frame:** The precision-crafted aluminum border adds a touch of elegance and a high-quality metallic feel to your entrance.
- **Ultra-Slim Flush Mount:** Designed to be unobtrusive, the device sits nearly level with the wall, showing only 8mm for a clean, modern look.
- **Night Vision Clarity:** Built-in infrared lighting ensures you can clearly see and identify visitors even in low-light or nighttime conditions.
- **VBELL App Support:** Stay connected from anywhere. Answer calls and unlock the door remotely using your smartphone for ultimate convenience.

INFRARED NIGHT VISION

Provides a clear night view, and supplemental light

SIP PROTOCOL
