

AvA-610s 7-inch Smart Console

Seamless Control at Your Fingertips

The AvA-610s is a high-end Android 9.0 video console. It seamlessly integrates HD audio, video, and centralized control, making it perfect for smart buildings and modern offices.

Features:

- **7-inch Touch Display:** Features a capacitive color touch screen with an intuitive interface, delivering an enhanced user experience and clear video monitoring.
- **Virtual DSS Keys:** Supports up to 112 customized configurations across 4 dynamic pages. It offers flexible, programmable control for complex building management.
- **Broad SIP Compatibility:** Highly compatible with mainstream SIP-based IP PBX and IMS platforms, ensuring flawless integration with existing unified communications networks.
- **Dual Gigabit Network:** Equipped with dual Gigabit Ethernet ports and PoE support. It guarantees reliable, high-speed connectivity with simplified installation.

ANDROID 9.0 OS

Powerful platform for smooth third-party app integration.
